This short abstract should be informational and not exceed 35 words. It should provide a summary of the paper's general scope. No figure numbers, table numbers, references or displayed mathematical expressions should be included.

Keywords: List of a maximum of two keywords

1. Introduction

This document serves as a guide to the Manuscript Template for submissions made to the conference.

2. Language, Spelling and Grammar

All papers must be written in English.

3. Paper Length

The abstract must be 1 page.

4. Page Formatting

A PDF of the template will be submitted.

5. Figures

Graphics may be full colour but please make sure that they are appropriate for both print (black and white) and online (colour) publication. Each figure should be explicitly referred to in numerical order and should be embedded within the text.

Figure captions must be inserted below the figure in a 9pt font and ideally consist of just one sentence. If a figure has subfigures, all subfigures should also have a caption and should be identified by letters, e.g. a, b.

6. Tables

Tables should be formatted as the example below. Tables must be numbered and cited within the text. Table captions must be above the table and in 9pt. font.

Table 1 Example table

Column heading	Column heading two	Column heading three
First Row	First Row	First Row
Second Row	Second Row	Second Row

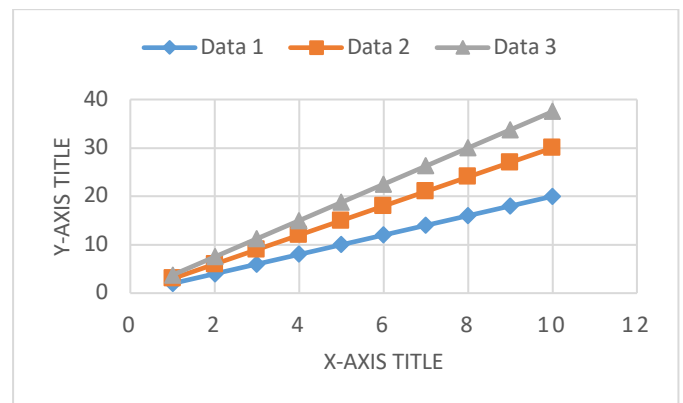

Fig. 1 Sample graph with blue (dotted), green (solid) and red (dashed) lines

7. Mathematics and Equations

Equations should fit into a two-column print format. Equations shall be single spaced. When writing mathematical equation, please try to avoid using characters that could be mistaken for one another, e.g. the letter 'l' and the number one. Vectors and matrices should be in ***bold italic*** and variables in *italic*. Refer to equations using round brackets, e.g. (1).

Acknowledgements

Acknowledgements should be placed after the conclusion and before the references section.

References

You should number your references sequentially throughout the text, and each reference, in a 9pt font, should be individually numbered and enclosed in square brackets (e.g. [1]). If the number of authors on a reference is greater than three, please list the first three authors followed by et al.
